- Adobe Lightroom, Express
- Adobe InDesign
- Conceptual thinking
- Front-end development
- Drupal and WordPress
- Cross-functional comms
- Constant curiosity!

## RECOMMENDATIONS /

### MICHELE MELENDEZ

SR. MANAGER, DIGITAL CONTENT @EDF

Brandi is a talented designer and a master teacher. She's always willing to explain why something works – or doesn't – in ways non-designers can understand.

She's patient and thoughtful, and she's a skillful problem-solver. I appreciate her willingness to listen and carefully consider other perspectives. Plus, she has a fabulous sense of humor. When I work with her, I know we're going to create something terrific and have fun in the process.

### HALEY PARMELEE

SOCIAL MEDIA SPECIALIST @NATIONAL NURSES UNITED

Brandi's overseen web refreshes with grace and created a beautiful product time and time again. On top of her demonstrated skills designing for the web, Brandi went out of her way to share her expertise with others. I worked with her on a project to create Canva templates and design reviews for non-traditional designers. She made design principles easy to understand and accessible for all and fostered growth for everyone. Her warmth and energy are contagious, which is part of what makes her such a wonderful colleague and teacher.

### AMANDA PERRY

SR. MANAGER, SALES OPERATIONS @98POINT6 INC.

Brandi is a talented designer with the technical coding skills (CSS, Sass) and vision to execute a variety of design projects from start to finish. As a project manager, it was so easy to rely on Brandi.

Brandi thinks carefully about the user experience in all her designs, and it was clear on every project (whether custom web features, site overhauls or social graphics) that she was designing not just something beautiful but something functional for the intended audience. This attention to detail and commitment to serving our audiences helped the entire team reach our goals more effectively.

Her drive to always improve and incorporate the latest tools and insights into her work was clear each time we did a lab day. Brandi always gave insightful presentations that taught the entire team. In addition, Brandi is kind, collegial and humble. Her skill, her work ethic and her positive attitude make her a true joy to work with.
